

22S:166, Computing in Statistics
Fall 2009
Instructor: Cowles
Information on Final Exam

- The final exam will be given at 7:30 A.M Tues. Dec. 15 in the PC lab, 41 SH. You may take up to 2 hours to complete the exam. You will need to use SAS and R. You may do this either on the Windows machine, by logging into the Linux machines in the lab in 346, or by bringing your own laptop.
- The final will be cumulative and will cover the following topics:
 - all topics listed on descriptions of midterms 1 and 2
 - SAS
 - * data steps
 - merging
 - informats
 - formats
 - labels
 - * procedures: means, print, freq
 - * proc format
 - * proc tabulate
 - * macro variables and macro functions
- You may use notes, computer files, on-line resources; in short, anything except other people!
- You will not have to use LaTeX or Sweave for the final exam. You will be given a text file in which to submit your answers.
- I will post last year's final exam as practice problems.
